

# XSi – Independent IT Maintenance

## For Networking Hardware

### Original Equipment Manufacturers Supported

#### Networking Products Supported

Which assets are eligible for XSi independent support? XSi provides an easy-to-deploy Network Hardware Assessment to identify assets which are past/approaching key milestone dates (EoS, EoL or EoS).

- Cisco
- Juniper
- Riverbed
- Extreme
- F5 Networks
- Brocade
- [Click Here](#) for a complete list of supported products.

#### XSi Cisco Lifecycle & Asset Assurance

Directly addresses the entitlement risk created by **Cisco Smart Licensing** and provides the guidance necessary to further improve resiliency and ongoing, proactive SMARTnet cost containment.

- Creates per-asset logic for hardware support vendor selection.
- Designs a compliant sparing model, then takes over the ITAM burden & logistics.
- Provides ongoing milestone data alerts for per-asset ability to move to XSi maintenance.
- Provides ticketing service, and independent support for all eligible assets.

#### More Money in Your Budget:

Save significantly, reductions averaging 60+% are typical

#### Independent Hardware Maintenance:

Enhanced service options for eligible IT networking assets

#### No-Risk Service Assessment:

Together, we'll discover what service and cost problems can be solved

IT Maintenance & Ingenuity

#### 100% Entitlement Compliance:

Optional guidance/support to ensure compliance

#### High Quality Standards:

ISO9001:2015 Certified for Product Resale, SAE AS5553 compliant and Gartner recognized

### About Us

With guidance from XSi technical experts, and a formal asset assessment, a collaborative process helps identify networking hardware that can be moved to lower-cost, independent maintenance from XSi. Additionally, XSi also offers 100% entitlement compliance, designed self-sparing models, inventory management with forward stocking locations, IMAC/SmartHands and secure ITAD services for current network maintenance clients.

### Hardware Service Features & Options

- No Forced Tech Refresh: Maintenance for End-of-Support, End-of-Software-Maintenance or End-of-Life hardware
- Focused on Quality/Security: Multiple certifications to ensure highest standards and controls
- Ready in Advance: Robust parts-sparing model with proven logistics and 600+ forward stocking locations
- 24x7x365 Techs: TAC (Technical Assistance Center) team of CCIE- and CCNA-certified experts
- Ongoing & Proactive: Lifecycle Management guidance from Configuration Management Database (CMDB)
- Compliance: First to offer service ensuring 100% Cisco entitlement compliance, while reducing SMARTnet costs
- Flexible Guidance: Self-sparing models can be designed/simplified to further reduce SMARTnet costs

## Certifications
