

XSi – Independent IT Maintenance

For Networking Hardware

Original Equipment Manufacturers Supported

Networking Products Supported

Which assets are eligible for XSi independent support? XSi provides an easy-to-deploy Network Hardware Assessment to identify assets which are past/approaching key milestone dates (EoS, EoL or EoS).

- Cisco
- Juniper
- Riverbed
- Extreme
- F5 Networks
- Brocade

XSi Cisco Lifecycle & Asset Assurance

Directly addresses the entitlement risk created by Cisco Smart Licensing and provides the guidance necessary to further improve resiliency and ongoing, proactive SMARTnet cost containment.

- Creates per-asset logic for hardware support vendor selection.
- Designs a compliant sparing model, then takes over the ITAM burden & logistics.
- Provides ongoing milestone data alerts for per-asset ability to move to XSi maintenance.
- Provides ticketing service, and independent support for all eligible assets.

More Money in Your Budget:

Save significantly, reductions averaging 60 - 80% are typical

Independent Hardware Maintenance:

Enhanced service options for eligible IT networking assets

No-Risk Service Assessment:

Together, we'll discover what service and cost problems can be solved

XSi™ IT Lifecycle Services & Support

100% Entitlement Compliance:

Optional guidance/support to ensure compliance

Certified Services:

R2v3, ISO9001, ISO14001, ISO45001, R2v3 certified and SAE AS5553 compliant.

About Us

XSi provides independent network hardware maintenance services for Cisco, Juniper, Riverbed, Extreme, F5 Networks and Brocade hardware. Not all networking hardware assets require expensive maintenance agreements from the Original Equipment Manufacturer, so OpEx budget cost reductions, often averaging 60+%, are not only possible, but perfectly viable with XSi support.

Which assets are eligible for XSi network maintenance? XSi provides an easy-to-deploy Network Hardware Asset Management Assessment to readily identify networking assets which receive free OS updates or are past (or approaching) key milestone dates (EoS, EoL or EoS). Assessment results help XSi product managers lead a consultative dialogue with your team so per asset eligibility decisions are fully understood.

Hardware Service Features & Options

- Support 10,000 customers in 165 countries, with a direct presence in 30 countries & 45 global offices
- 370 global stocking locations with over 360,000 IT Infrastructure Systems Maintained
