Experienced data center relocation specialists, recognized by Gartner

Certified Services: R2v3, ISO9001, ISO14001, ISO45001, R2v3 certified and SAE AS5553 compliant.

Globally available service with international relocation experience

IT Lifecycle Services & Support

Certified & TS-cleared (for federal) field engineers on-site

Chain of Custody process provides end-to-end security

About Us

XSi's Data Center Relocations subject matter experts have 20+ years' experience conducting relocations of all sizes, varying levels of complexity and/or security – including direct support for security-sensitive federal agencies and transportation methods. In addition, TS-cleared (Top Secret) on-site technicians are available by request. XSi provides complete, end-to-end Data Center Relocations, including consulting, project management, planning, physical transportation and de-install/reinstall services. XSi's service is entirely scalable for very small up to highly-complex, multi-site relocations, including consolidation outcomes. In addition to Data Center Relocation services, XSi can provide IT hardware maintenance services to extend the lifecycles of data center or network assets for as long as the client may choose.

Service Features

- Complete end-to-end Data Center Relocation Services
 - Project management, planning, mapping, de-installs, secure pack-and-ship, re-installs
