About Us

XSi provides full IT Asset Disposition support to North America-based clients, EMEA-based clients, APAC-based clients, as well as clients throughout Latin America. XSi's certified and secure North American ITAD service is available to any business, agency or organization requiring secure IT disposition, remarketing or recycling service for End-User-Compute (laptops, desktops, printers, telecommunications and smartphones) devices, servers, data storage and networking hardware. Our global network of meticulously vetted providers, buyers/resellers and native-speaking and/or local program managers ensure a seamless, efficient process for any local, regional or global ITAD project.

Service Features

- Secure onsite or offsite data wiping to NIST 800-88 wiping standards with documented certifications
- Secure onsite or offsite data destruction with certificates
- Remarketing, re-purposing or re-deployment when possible
- Full asset recycling or environmentally responsible component disposition to globally accepted standards
- Fully certified, secure ITAD service from a company that regularly records Client Satisfaction (CSAT) scores of >97 percent
- XSi also provides other Professional Services, to include: SmartHands (on-demand tech expertise for larger projects), IMAC (Installs, Moves, Adds, Changes) services and data center relocations
- For over 30 years, XSi has provided lower-cost independent enterprise IT hardware maintenance (warranty extensions) for End-of-Life or End-of-Support enterprise servers, data storage and network hardware assets.

Certifications & Credibility

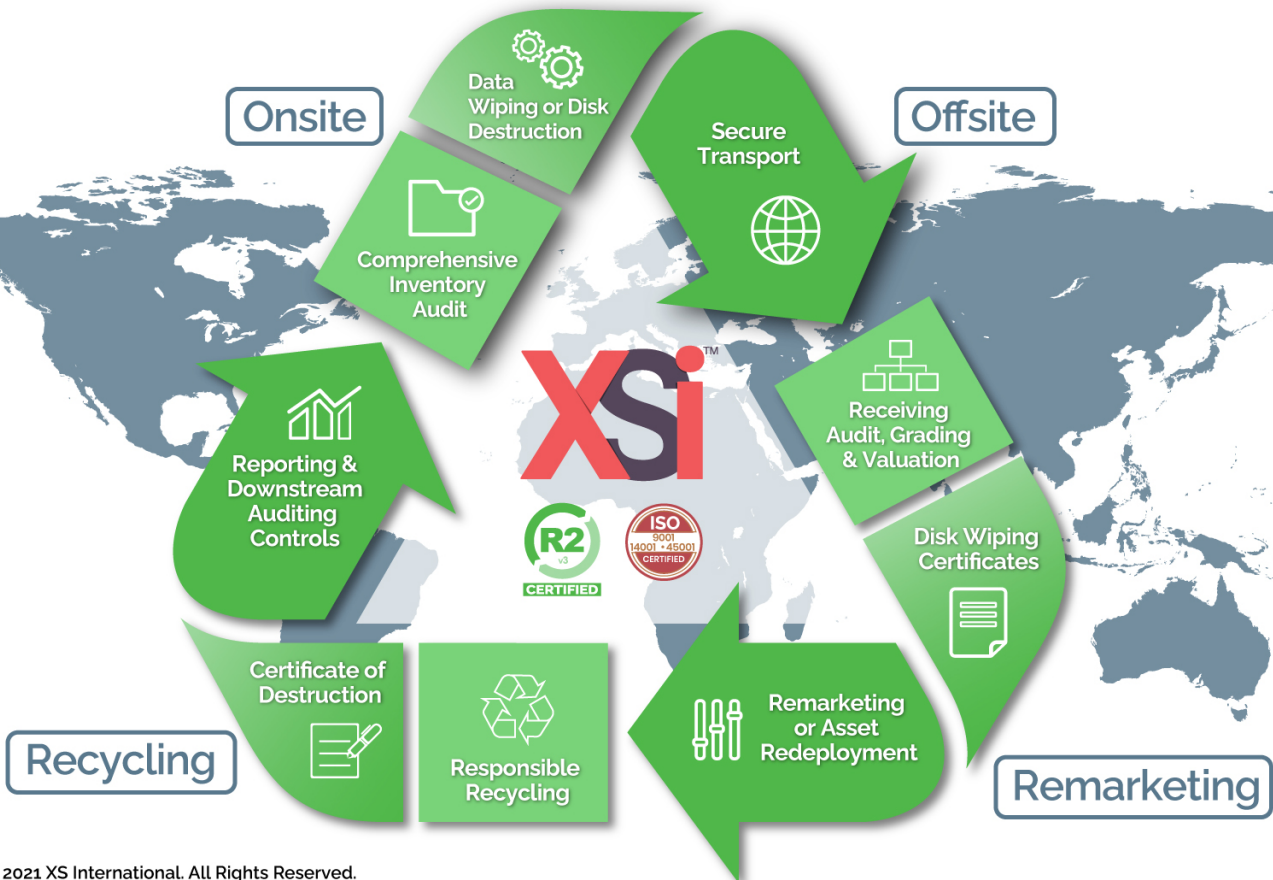

XSi supports the most discerning and security-sensitive enterprise IT departments in the world, which includes the US federal government, healthcare, financial services & banking, etc.
